

## «A Girl of Light»

(Eng) Translated by Tatyana Ivakhnina

A girl of light, happy to romp,  
A child of summer's heat.  
And the winter's scattered pomp  
Is now hard to meet.

My lady-light, each day you are  
More beautiful than then.  
We've wandered now so far  
Into the love of men.

\* \* \*

Madam of light, a clear dream,  
A holiday of life.  
Let drops of darkness there seem  
To tarnish lighting's strife.

\* \* \*

An elderly light to walk along.  
But memory should not splinter.  
A letter of goodbye's a song:  
Wait till the end of winter.
