

«Miracle Of Love»

Слова и музыка: группа «Eurythmics»

Someone took the colour of the rainbow.
When the golden sun was breaking through.
Took the blossom of a rose shimmering with dew,
Then they made a miracle of you.

* * *

Some took the tenderness of moonlight,
As the shadows change the sky of blue.
Took the shine of nightingale,
Then they made a miracle of you.

* * *

Now I know the reason,
True love can mean just anything.
Love makes every season,
As warm and wonderful as you.

* * *

And beyond the dreams of any mortals,
You are far too lovely to be true.
And I know forever all I ever want to do,
Is to love the miracle of you.
