

## «Full Speed ahead!»

(Eng) Translated by Makarenko Catherine

Outside it's below forty;  
My soul is still full of fire.  
Our Russian frost now for me  
Is the thing I extremely admire.

Cold wind burns my face severely;  
High trees are moaning – alas.  
I've noticed lately sincerely  
That any heat by our frost is surpassed.

I'm waited, without fail, by someone  
In the city that lies ahead.  
We are stronger than any trouble,  
That's why let's go full speed ahead!
